

**ERASMUS +**

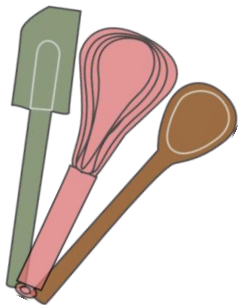

*Smart Science Meets Art*

**Baking chemical  
gingerbreads**

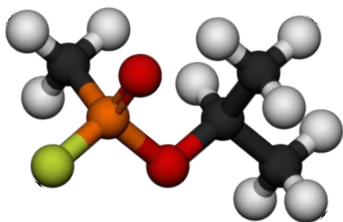

*Czech Republic*

# Hi!

We are students from Czech Republic and we decided to combine science with art – chemistry (science) with baking (art) . We baked gingerbreads like chemical molecules. We hope you'll like our idea and maybe you'll try it too! And now we will watch some pictures 😊

Let's go!

# Making dough

# Templates for our edible molecules

# Cutting out

# Cutting out

# Decorating

# Presents for our teachers
